What are

# Vocational Pathways?

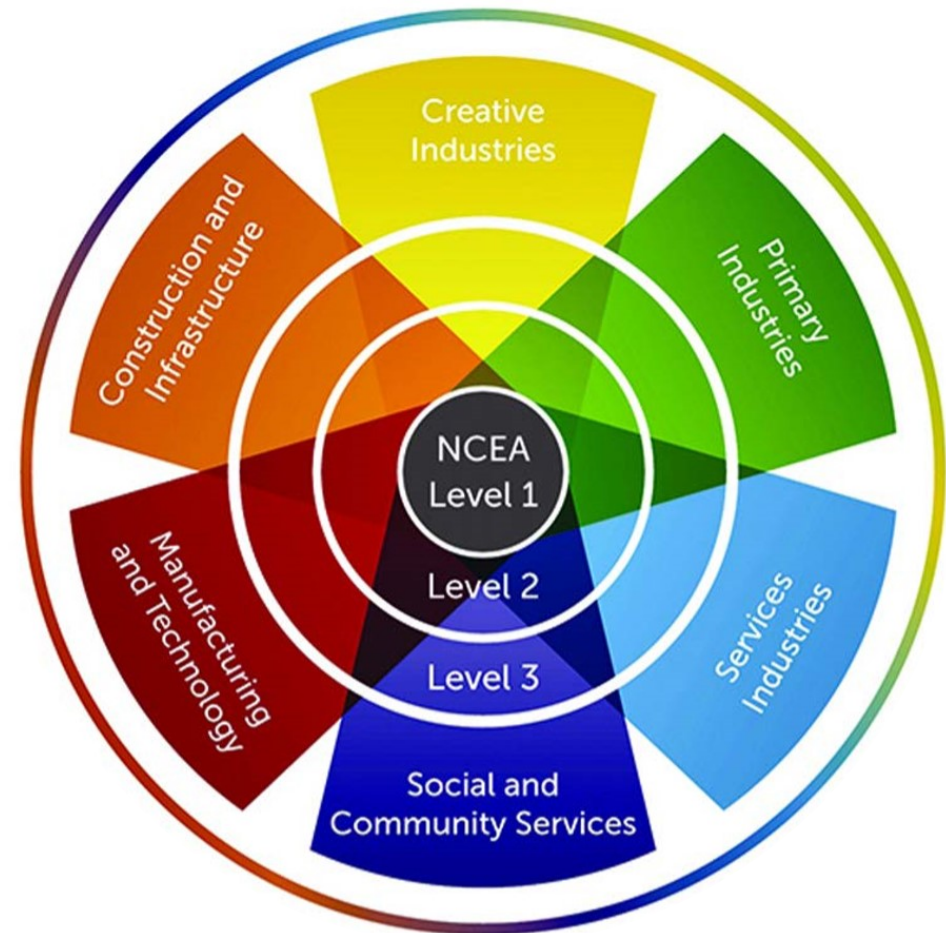

The Vocational Pathways are a tool that provides a clear framework for vocational options, support better careers advice and improve the links between education and employment.

The six pathways represent a new way to structure and achieve NCEA Level 2 and provide a better framework for foundation education and training.

All programmes in this booklet are colour coded and matched to Vocational Pathways and will assist students to develop their own education plan based on programmes offered here in Whanganui.

**Further information regarding Vocational Pathways can be found at**  
<https://www.careers.govt.nz/courses/still-at-school/vocational-pathways/>

**or take a look at Occupation Outlook**  
<http://occupationoutlook.mbie.govt.nz/> and download the App.

February start | 1 year

Develop your individual and band performance across many popular music styles. Gain skills in live sound and recording, theory, song writing/ composition and music management.

## Bachelor of Design and Arts BDA (Level 7)

*Provider:* [UCOL](#)

February and July start | 3 years

The Bachelor of Design and Arts embodies the idea that artists and designers of all kinds benefit equally from both collaborative and individual learning environments. For this reason this programme brings design and art disciplines together to benefit from the creative energy that results from collaborative learning; whilst also allowing students to choose a specialist major area of study in which to focus their attention.

This programme provides the opportunity to gain the skills not only to create successful design and art works, but also to market these concepts and products, communicate successfully and understand the importance of self-promotion for success. Learn from our lecturers who are also practising artists, designers and educators, passionate about inspiring creativity.

Intern projects, drawing, art/design labs, history and theory professional practice make up this programme with a strong focus on 'hands on making' experiences through studio-based work.

## Post Graduate Diploma in Design (Level 8)

*Provider:* [UCOL](#)

February start | 1 year

An exciting year of independent and facilitated study focussing on either time-based/print-based design, object design/visual arts or fashion/ textile design. Based on both lecturer facilitated and self-directed research projects.

## Master of Design (Level 9)

*Provider:* [UCOL](#)

February start | 18 months

Take your passion for design to the next level with our Masters of Design degree. Our highly-skilled lecturers will deliver the art/ design theory and original academic/applied research required for you to create advanced projects of your choice in either time-based/print-based design, object design/visual arts or fashion/ textile design

# Primary Industry

## Bachelor of Applied Management

Provider: [UCOL](#)

February and July start | 3 years

The aim of this degree is to provide students with hands-on applied knowledge and experience in business. The concept of 'applied management' is core to the degree – where students 'apply' knowledge, skills and capabilities in a variety of ways and contexts as they progress through the degree. This is built on sound, relevant theoretical knowledge with the opportunity to apply this in a business context.

Practical industry experience is built into this three-year programme, as well as workplace assignments and case studies. Students can specialise in up to two majors\* from the second year of study.

- Accounting
- Business Information Systems
- Project Management
- Operations & Production Management

This programme is accredited by the Chartered Accountants Australia New Zealand (CAANZ), Certified Practicing Accountants Australia (CPA Australia), and the Institute of Management New Zealand (IMNZ). Our business students also benefit from our relationship with the Association of Administrative Professionals New Zealand (AAPNZ).

\* Programme majors are subject to availability
